Dear Delegates,

Hope this email finds you well and healthy.

While the local transmissions and spread of COVID-19 in China has been effectively controlled, the situation overseas is still uncertain. As a result, holding any large-scale events at present may result in further spread of the disease. In response to national guidelines of China on restricting non-essential people movement and the organization of large-scale events, and most importantly to ensure the health and safety of delegates, the organizing committee of CCDC 2020 has decided to postpone the conference, which was originally scheduled to be held on 23-25 May 2020. The organizing committee is staying alert and monitoring COVID-19. New dates will be determined based on on-going assessment of the COVID-19 situation at home and abroad, and announced separately.

We thank you for your continuing support and understanding, and apologize for any inconvenience caused.

Stay safe and healthy!

Sincerely,
CCDC 2020 Secretariat
